PASO Medical Joins ClinTrial Refer

ClinTrial Refer is pleased to welcome PASO Medical to the ClinTrial Refer community!

PASO Medical offers access to the latest therapies via clinical trials that include but are not limited to, molecular profiling of cancers, targeted therapies, immunotherapies, and cancer vaccines.

The Clinical Trials Unit (CTU) supports academic and commercial research predominantly in patients with oncological cancers (breast, lung, prostate, colorectal, gastro-oesophageal), as well as haematological cancers (lymphoma, multiple myeloma).

(Below) Mr Albert Goikhman, Clinical Trials Manager, PASO and PASO Infusion Centre.

"We are pleased to announce our new partnership with ClinTrial Refer. The number and complexity of clinical trials undertaken in Australia and globally is increasing, and we are confident that this alliance, will help streamline accessibility and availability of information for each trial" - Mr Albert Goikhman, Clinical Trials Manager, PASO

PASO Medical has a dedicated purpose-built space for conducting clinical trials and an on-site clinical trials team who work collaboratively with patients who wish to participate in clinical trials.

PASO Medical research staff are well-qualified, experienced, and trained in the International Conference on Harmonisation for Good Clinical Practice guidelines (ICH-GCP), to ensure that the rights, integrity and confidentiality of trial participants are protected.

PASO research staff liaise with patients and their clinicians, and collect and enter data in an accurate and timely manner for sponsors. The staff co-ordinate patient appointments, including imaging, blood tests, ECG's and other treatment related tests, always delivering the best possible level of care for all trial participants.

The PASO Clinical Trials Team keep up to date with the latest clinical trials and ensure they have the highest standard for designing, conducting and implementing trials, performance and monitoring, auditing, recording, analysis and reporting of clinical trials, providing assurance that the data and results are credible and accurate.

PASO Medical keeps up to date with the latest clinical trials that are happening all over the world and offer these trials to suitable patients as an additional option for treatment.

PASO's purpose is to provide patients the opportunity to contribute to ongoing research and to ensure that patients receive the most up to date care from health professionals. They strive to provide and maintain a cancer centre of excellence, whilst contributing to the world of cancer research.

ClinTrial Refer Welcomes the Support of the Ovarian Cancer Research Foundation (OCRF)

OVARIAN CANCER RESEARCH FOUNDATION

ClinTrial Refer supporters are vital to helping raise awareness of ClinTrial Refer as a resource to connect to current clinical trials that can potentially be life changing. This month we are honored to announce Ovarian Cancer Research Foundation (OCRF) as a new supporter to our expanding community.

Established in 2000, the OCRF has grown to become Australia's leading independent body dedicated to funding national ovarian cancer research. Their expertise ensures they fund research that will have the greatest impact on the largest number of Australian women and girls.

With the support of the Australian community and corporate partners, OCRF are Australia's pre-eminent charity dedicated to funding the most promising and innovative ovarian cancer research proposals that:

- provide hope and personalised treatment options aimed at extending the lives of women and girls currently fighting ovarian cancer
- aim to develop a non-invasive, accessible and reliable early detection test that will save women's lives, shifting five-year ovarian cancer survival rates from below 50% to 90–100%
- are focused on prevention and cure so that women in the future will live without any threat of ovarian cancer

Their ultimate aim is the development of a cure for ovarian cancer, which will save all women from this insidious disease.

For more information about the OCRF visit their [website](#).

The 2024 Australian Women's Health Diary

ClinTrial Refer partner Breast Cancer Trials now have The Australian Women's Health Diary available.

When you buy the diary, not only will you be helping the 57 people diagnosed with breast cancer every day, you'll also have the perfect organiser for the year ahead, with all the latest expert health and wellbeing advice at your fingertips.

This diary has raised over \$18 million since the first edition in 1999, in support of BCT clinical trials research program. Grab your copy today from your local Newsagent, participating Post Office or to purchase online [click here](#).

Contact diaryenquiries@bctrials.org.au if you have any questions.

Trial Spotlight

Trial Spotlight

On average 28 trials are listed in the ClinTrial Refer database every month

We aim to highlight some of these in our newsletter each month
