Central Adelaide Local Health Network (CALHN) Joins ClinTrial Refer

**Government
of South Australia**

Health
Central Adelaide
Local Health Network

ClinTrial Refer would like to extend a very warm welcome to Central Adelaide Local Health Network (CALHN), the newest member to join the growing ClinTrial Refer community!

Central Adelaide Local Health Network (CALHN) is the largest local health network in South Australia. It has an important role in improving the health and wellbeing of South Australians by delivering world-class integrated healthcare, embedding research in its general and quaternary hospital services. They work closely with a range of commercial and academic partners and world-leading researchers to give patients access to the latest treatments, leading to better care and best possible outcomes.

CALHN is communicating its clinical trials in the ClinTrial Refer database which are being conducted in multiple disciplines at the **Royal Adelaide Hospital** and **The Queen Elizabeth Hospital**.

ITP Australia and New Zealand Joins ClinTrial Refer

We would like to thank ITP Australia and New Zealand for joining ClinTrial Refer as our newest supporter. ClinTrial Refer supporters play a vital role in raising awareness about ClinTrial Refer as a resource to connect to current clinical trials.

Immune Thrombocytopenia or Idiopathic Thrombocytopenia Purpura, otherwise known as ITP, is an autoimmune disease where the body doesn't produce enough or attacks existing platelets, resulting in a low platelet count. Platelets are important to forming clots and slow bleeding.

ITP Australia and New Zealand launched in 2015 with the mission to provide people living with ITP with up-to-date and relevant information. Since then, they have been able to bring ITP patients together through in-person and virtual meetings, advocate and deliver improved access to existing and emerging therapies, showcase the available clinical trials and, most importantly, provide much-needed support for people living with ITP.

This has been achieved through a growing network of stakeholders, which includes patients, industry, government and healthcare professionals.

Learn more about ITP Australia and New Zealand today and visit their website ITPAustralia.org.au

Share Trials

Did you know you can share trials with other users in the ClinTrial Refer App? Simply go to the trial you wish to share, open the 3-dot menu in the top right hand corner and select 'share with others'. This will open up a variety of sharing options for you to select!

Open the trial you would like to share, and click the menu on the top right

Click "Share with Others". You will have the option to share the trial by email or other social media app.

Trial Spotlight

Trial Spotlight

On average 28 trials are listed in the ClinTrial Refer database every month

We aim to highlight some of these in our newsletter each month
